

**Brief Biography
For
Timothy J. Puckorius**

Timothy Puckorius is a 30+ year veteran in the satellite remote sensing and Geospatial Industry with extensive expertise in the commercialization, development, international marketing, direct sales and operations of global remote sensing and earth observation satellite companies and national space programs. Mr. Puckorius also has domain expertise in the burgeoning Commercial Weather Satellite Industry and related Earth science missions, especially Global Navigation Satellite System (GNSS) Radio Occultation (GNSS-RO).

Mr. Puckorius is the Founder and CEO of Earth Observation Technologies LLC (EOTec), a consulting practice operating across all sectors of the rapidly expanding Geospatial Industry and Commercial Weather enterprise, for all types of clients, worldwide.

Prior to forming EOTec, Mr. Puckorius served as Senior Vice President of Worldwide Marketing & Sales for GeoEye Inc. (now DigitalGlobe Inc. /NYSE - DGI) and as Vice President of International Marketing and Sales for a number of satellite companies including Orbital Imaging Corporation ("ORBIMAGE"), Spacelming Inc., and the Earth Observation Satellite Company ("EOSAT") - the first commercial operators of the LANDSAT satellite program.

In addition to serving as a principal architect and marketing strategist for the commercialization of weather and imaging satellite programs, Mr. Puckorius has traveled extensively and has lived in France, Belgium and Saudi Arabia. His academic background includes advanced degrees from The George Washington University, Elliott School of International Affairs (Washington, DC) and The American University in Paris (France). Mr. Puckorius serves on numerous industry-related Boards and Advisory Committees.
